UDIT SHARMA

Visual Designer (Branding, Motion, Graphics)

▶ Watch My Showreel

Data-driven Visual Designer with 6+ years of experience elevating brand identities for top-tier SaaS companies and agencies. Expert in bridging motion graphics, visual design, and UX principles to craft high-converting landing pages and dynamic product campaigns. Passionate about maintaining design excellence while thriving in fast, iterative engineering cycles.

Experience

- **Lead Visual & Motion Designer**

  Growth Social

  → Led visual branding initiatives, producing high-converting digital assets and motion graphics for SaaS marketing campaigns.

  → Designed and maintained complex visual asset libraries in Figma, ensuring design consistency across all digital touchpoints.

  → Collaborated with design and development teams to conceptualize and implement high-performing product landing pages.

  → Optimized workflows to support fast, incremental engineering cycles while minimizing structural design complexity.

- **Freelance Visual Designer & Motion Artist**

  Self-Employed (Global SaaS & Agency Clients)

  → Partnered autonomously with major marketing agencies to deliver end-to-end visual identities and performance ad creatives.

  → Managed entire creative pipelines: from UI/UX storyboarding in Figma to advanced After Effects motion design and branding execution.

  → Continuously measured results and automated repetitive design tasks, consistently improving creative output by 10% month-over-month.

Key Projects

SaaS Brand Evolution

Led the visual overhaul for top-of-funnel SaaS campaigns, designing comprehensive asset libraries and unified brand guidelines.

Interactive Landing Pages

Collaborated with developers to design and animate interactive web experiences, heavily applying UX principles to boost conversions.

Product Launch Visuals

Produced premium launch video assets and motion graphics that anchored new feature releases. Maintained strict design excellence while elevating brand value for B2B tech clients.
